## BARNARD MATHEMATICS DEPARTMENT

Name of student $\qquad$

Contact information:

Email me at $\qquad$

Call me at $\qquad$

If this request is for approval of a Columbia University summer course, you do not need to fill out the rest of this request. You will still need to submit a completed Barnard College Summer Course Approval Form to the Registrar. Columbia course approval is automatic.

## Check list:

- Completed Barnard College Summer Course Approval Form
- Description of summer course. Two copies are needed (one for Registrar and one for the department)
- Schedule of summer course. Two copies are needed (one for Registrar and one for the department)
- Summer 2023 School Worksheet

## SUMMER 2023 SCHOOL WORKSHEET

## BARNARD MATHEMATICS DEPARTMENT

1. Name of summer school $\qquad$
2. Name and number of course $\qquad$
3. Which Barnard course is similar to this course? $\qquad$
4. Starting and ending dates of summer session $\qquad$
5. Is this at least 5 weeks?
6. Have you already taken this course?

No
7. Please circle the class meeting times below, taking into account holidays such as July 4.

| May 2023 |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

|  |  |  |  |  |  |  |

8. How many days does your class meet in total? $\qquad$
9. How many minutes in each class meeting? $\qquad$
10. How many hours does your course meet in total?
$\qquad$ $x$ $\qquad$
minutes per meeting total days in session $\qquad$
60 mins.

## For comparison purposes,

A 3-point Barnard Tuesday, Thursday spring semester Calculus course meets for: ( 75 mins. X 28 days) / 60 mins.
A summer school equivalent should meet for at least this many hours: 36 hours
A College Algebra and Analytic Geometry course meets for: ( 75 mins. $X 42$ days) $/ 60 \mathrm{mins} .=52.5$ hours A summer school equivalent should meet for at least 45 hours.
11. How many points are you requesting? 3 points 4 points
12. If you are requesting credit for a calculus course, does the second segment of your course's sequence include Taylor's theorem and infinite series?
Yes
No

## Please answer even if you are only taking the first segment of this sequence.

If NO, your course moves too slowly to receive full credit. However, you may still receive 3 points for taking two courses in such a sequence.
